SEE Program for Industry Associations

Skills for Education & Employment Program (SEE)

Tailored training to upskill Industry Association members' employees.

The SEE Program provides access to foundation skills training for all [eligible Australians](#) seeking to improve their reading, writing, maths and basic computer skills, enabling them to actively participate in the economy and society.

Your organisation can partner with TAFE Queensland on behalf of one or more of your members, to design a training project for their employees.

Your members' employees can benefit from a tailored training plan that improves verbal and written communication skills and enhances numeracy and digital skills. This can lead to increased knowledge and confidence which may reduce staff turnover.

TAFE Queensland will work with you to identify employee skills needs and design a training project. These projects can be delivered at a place and time that is convenient for members and their employees.

As an Industry Association, you are encouraged to support the delivery of the project. You can do this by organising time for the training to be completed during work hours and by offering an appropriate training space for the training to be delivered.

For more information please contact:

Email // marketing.tells@tafeqld.edu.au

This training can:

-  Reduce staff turnover
-  Increase knowledge, confidence and job satisfaction
-  Enhance skills to increase everyday performance

At a glance:

-  Delivered on-site at the workplace or another appropriate training space
-  On average, 200-250 hours of training delivered over 6-8 months
-  Funded by the Department of Employment and Workplace Relations

An Australian Government Initiative

The Skills for Education and Employment (SEE) program is funded by the Australian Government Department of Employment and Workplace Relations.
